MASS IN UTERUS

Prof. (DR.) L. K. NANDA

M.D.(Hom.) , F.N.E.S.H. (USA)

H.O.D.Materia Medica

Homoeopathic doctors now - a - days are getting a number of patients suffering from abnormal bleeding from uterus. The causes of uterine bleeding are many such as D.U.B., Fibroid uterus, Menopausal, Uterine polypi, Adenomyosis, Endometrial carcinoma, Cervical carcinoma, Uterine sarcoma, etc. In most of the cases Gynaecologists used to do hysterectomy where even middle aged women are losing uterus landing into various complications. In practice many cases have seen to be cured by proper homoeopathic medicine permanently. These cured cases are also confirmed by ultrasonography where the earlier pathology diagnosed by ultrasonography have seemed to be cured after homoeopathic medicines. In malignant cases a trace cure is not possible but prolongation of life and improvement in the quality of life could be possible by homoeopathic medicine.

Few of the drugs which are very much helped in practice and found to be effective for metrorrhagia for any cause are described in this article. The symptoms on which the emphasis is given for selection of medicine are described.

HAEMMORRHAGE :

For immediate control
Fraxinus Amer Q. 10-15
drops at bed time -
Vert.Alb 30 at morning
(Shinghal)

FRAXINUS AMERICANA :

Fibroid growths,
enlarged uterus,
prolapsed uterus.

with bearing down
sensation extending to
thigh. Dysmenorrhoea
Tenderness of ft. Inguinal
region

VERATRUM ALBUM :

Menses - early,
profuse, exhausting
With severe pain ,
coldness, cold sweat.

KALI . IOD (Shinghal) :

Tried if Puls. Fails Packed
with fibroid tumors.

Menses, late , profuse.
Corrosive leucorrhoea.

Dose:- 1x . 1 grain 3 times.

LAPIS ALB : Fibroid , intense
burning pain, profuse
haemorrhage Uterine
cancer.

ACID NITRIC : Mense early profuse, like muddy water.

With pain in back hip, thigh, stitches through vagina. Leucorrhoea brown, offensive, flesh coloured.

USTILAGO : Uterus hypertrophied - Bleeding from slightest provocation, during climaxis.

Blood -dark clotted, viscus, forming long string. Pain in left ovary.

PULSATILLA :

Excellent remedy for fibroid (R.B.B.)* -

TM repeat twice in a month

Mense, late , scanty, painful (Cham, Conium, Dulc, phos, Sulph)

Mense , late , profuse - (Caust, Iod.)

Mense, early scanty - (Nat mur, phos , Silic)

Mense early profuse - (Amm. C. Calc C., Plat.)

AURUM MUR NATRONATUM :

Most specific (Burnett)

Coldness feel in abdomen - Uterus feels of whole pelvis.

AURUM ARS :

Cancer uterus with increased sexual desire.

Eruption on vulva with itching

Mense copius, acrid frequent.

THLASPI BURSA PASTORIS :

Cancer , fibroid

Metrorrhagia , frequent copius , painful

Alternate period profuse

1st day scanty , 2nd day colic , vomiting haemorrhage.

TRILLIUM PENDULUM :

Fibroid and haemorrhage, climatic haemorrhage.

Mense profuse , even two week lasting a week a longer , flooding with fainting bright red blood or dark red.

Severe backache

AURUM IODIUM :

Ovarian cyst, Uterine myoma with Aurum mentality.

CALC. CARB Constitutional

CONIUM MACULATUM

Mense delayed scanty

*Ray Bahadur Biswambhar Das.

Mastitis before mense

Rash before mense.

INDICA Bright red blood

Specific when other medicine fail

MURIATICUM :

Specific for haemorrhage due to fibroid

SABINA: Promotes expulsion of moles or foreign bodies from uterus

Early profuse party clotted & partly red .

CADMIUM MET., CADMIUM IOD,

CADMIUM SULPH :

For the Carcinoma uterus, after radium treatment is failed.

CM potency in given order.

HYSTERINUM : 30 Intercurrent once in a week .

OIDINUM :

Constitutional Specific 2X (Boericke)

Anaemia , emaciation muscular weakness, sweating, tachycardia

MEDORRHINUM : Constitutional

THUJA OC

Constitutional

Burning in left ovarian and inguinal region.

<Walking and riding

> must sit and lie down

Mense scanty, retarded , profuse sweat before mense.

CROTALUS HORRIDUS :

Pain in right ovary , dark fluid , offensive, haemorrhage

TERIBINTH :

1st grade in Kent's Repertory

Intense burning in uterine region with menorrhagia

CALC. FLOUR : Specific for mass in uterus

1st grade in Kent's Repertory

LACHESIS : Constitutional

PHOSPHOROUS : Constitutional

TUBERCULINUM : Constitutional.
